1. PURPOSE & INTENTION

To build a sovereign, regenerative, and globally exportable framework for civilisational uplift — starting from Minjerribah (North Stradbroke Island). The ecosystem consists of 10 interoperable legal entities: some sovereign to Straddie, and some global public benefit systems, working together to activate Joyful Responsible Abundance on Earth.

2. ENTITY STACK — THE TEN LIVING ORGANISMS

Global-Scale Purpose Entities

1. Alpha Infinity Foundation 🏠 — Global IP holder, spiritual custodian, licensing agent
2. Aura of Intelligence 🧠 — Wellness, NDIS, cognitive science, care-tech, AI health interfaces, Aura Geode Hyperbaric Oxygen Therapy.
3. GAJRA Earth 🌍 — Global DAO diplomacy, tourism, event systems, regenerative narrative
4. 500 Queens Venture Capital 👑 — Feminine-led planetary fund for civilisation-scale innovations

Sovereign-Straddie Entities (Locally Anchored)

5. Straddie Employment & Training Corp (SETCo) 🧑‍🎓 — Training, onboarding, job pathways for locals
6. Quandamooka Intelligence (Co-op) 🧬 — Indigenous-led AI, software, digital twin builders
7. Straddie Sovereign Wealth Fund (SSWF) 💰 — Community trust for island-specific assets and dividends
8. Sandworm Subterranean Systems 🐛 — Tunnelling, sand processing, resilience & subterranean infrastructure
9. Straddie Clean Energy Co. ⚡ — Microgrids, battery sand, solar sovereignty, energy commons
10. Sandy Sports Club 🏐 — Sport, youth, film, cultural activation via community events and facilities

3. LEGAL STRUCTURES & PEOPLE REQUIREMENTS

Entity	Form	Legal Type	People Needed
Alpha Infinity	Charity	CLG	3 directors + public officer
Aura	Enterprise	Pty Ltd	1 director/shareholder
GAJRA Earth	DAO-Bridge	CLG or Co-op	3–5 directors
500 Queens VC	Investment	Pty Ltd + Unit Trust	1–2 directors, optional unit holders
SETCo	Training Charity	CLG + (PBI eligible)	3 directors
Quandamooka Intelligence	Worker Co-op	CNL-compliant Co-op	5 members, 3 directors
SSWF	Community Fund	Discretionary Trust + Pty Ltd trustee	1+ trustee director(s)
Sandworm	Infrastructure	Pty Ltd	1 director/shareholder
Clean Energy Co	Energy Biz	Pty Ltd	1 director/shareholder
Sandy Sports Club	Sport & Culture	Inc. Association (QLD)	3 committee members

4. SETUP COSTS + STRATEGY

- DIY Estimate (All 10 Entities): ~\$5,500–6,500
- Outsourced Legal (Advised for CLGs, Co-op, SSWF): ~\$14,000–21,000
- Annual Costs per Entity: ~\$300–500 for ASIC, bookkeeping, compliance
- Trust/Charity Registration Costs: May incur added legal (\$1,500+ each)

5. INTEROPERABILITY STRATEGY

Alpha Infinity Foundation:

Owns all foundational IP; licenses to Aura, GAJRA, QI. Cannot be owned by SSWF.

Aura of Intelligence:

Builds clinics and services. May lease space or license content to Straddie via SSWF, but remains a global-purpose entity.

GAJRA Earth:

Runs global DAO, Earth diplomacy and tourism. May sponsor local festivals or ceremonies but retains global IP and tokens.

500 Queens Venture Capital (500QVC):

Funds planetary innovations. May invest in Straddie projects, but retains its own governance, shareholders and global reach.

Straddie Sovereign Wealth Fund (SSWF):

Holds only Straddie land, energy infrastructure, tunnels, sports facilities, and clean energy assets. Firewall prevents ownership/control over Aura, Alpha, GAJRA, or 500QVC.

Straddie Employment and Training Company (SETCo):

Deploys locals across all companies needing staff or training. Operates as Straddie's HR + Talent Onboarding DAO.

Quandamooka Intelligence:

Delivers software and AI for Aura, Clean Energy, Film Festival etc. Co-op keeps its own governance, but interoperates with grants, tools, and events.

Sandworm Subterranean Systems:

Tunnels the island to deliver trade routes, shelter, sand assets, and underground zones. Co-develops with Clean Energy, Fungineer, Deep Greenhouses, and SSWF.

Straddie Clean Energy Co:

Provides electricity and sand batteries. Island systems owned by SSWF; export energy/IP owned by Clean Energy Co.

Sandy Sports Club:

Fully owned/managed within SSWF. Youth programs, sports tourism, wellness integration.

6. EXECUTION STRATEGY – ALL-IN ROLL-OUT

- Simultaneously register all 10 entities
- Appoint ~12–15 humans to cover all governance roles
- Execute trust deeds, constitutions, operating agreements
- File for charity status for Alpha, GAJRA, SETCo
- Assign Sandworm + Clean Energy to infrastructure scoping
- Initiate Aura + QI services + pilots
- Onboard SETCo recruits, Notion stack, internal ledger
- Begin 500QVC & GAJRA investor engagement + DAO logic
- Map IP licensing, fee flow, dividend policies across entire stack

7. STRATEGIC PHILOSOPHY

- Sovereignty = All Straddie land, energy, sport, tunnels under SSWF
 - Mission-Locked Global Benefit = Alpha, Aura, GAJRA, and 500QVC governed separately to serve the planet
 - Regeneration = Sand to reef, care to community, battery to story
 - Joyful Responsible Abundance = The vibe, the tech, the values
-
