

An Aura Graphical User Interface to Utilize BlockChain,
Big Data, Artificial Intelligence & the Internet of Things
in the Most Trustworthy, Fun & Virtuous Ways Possible.

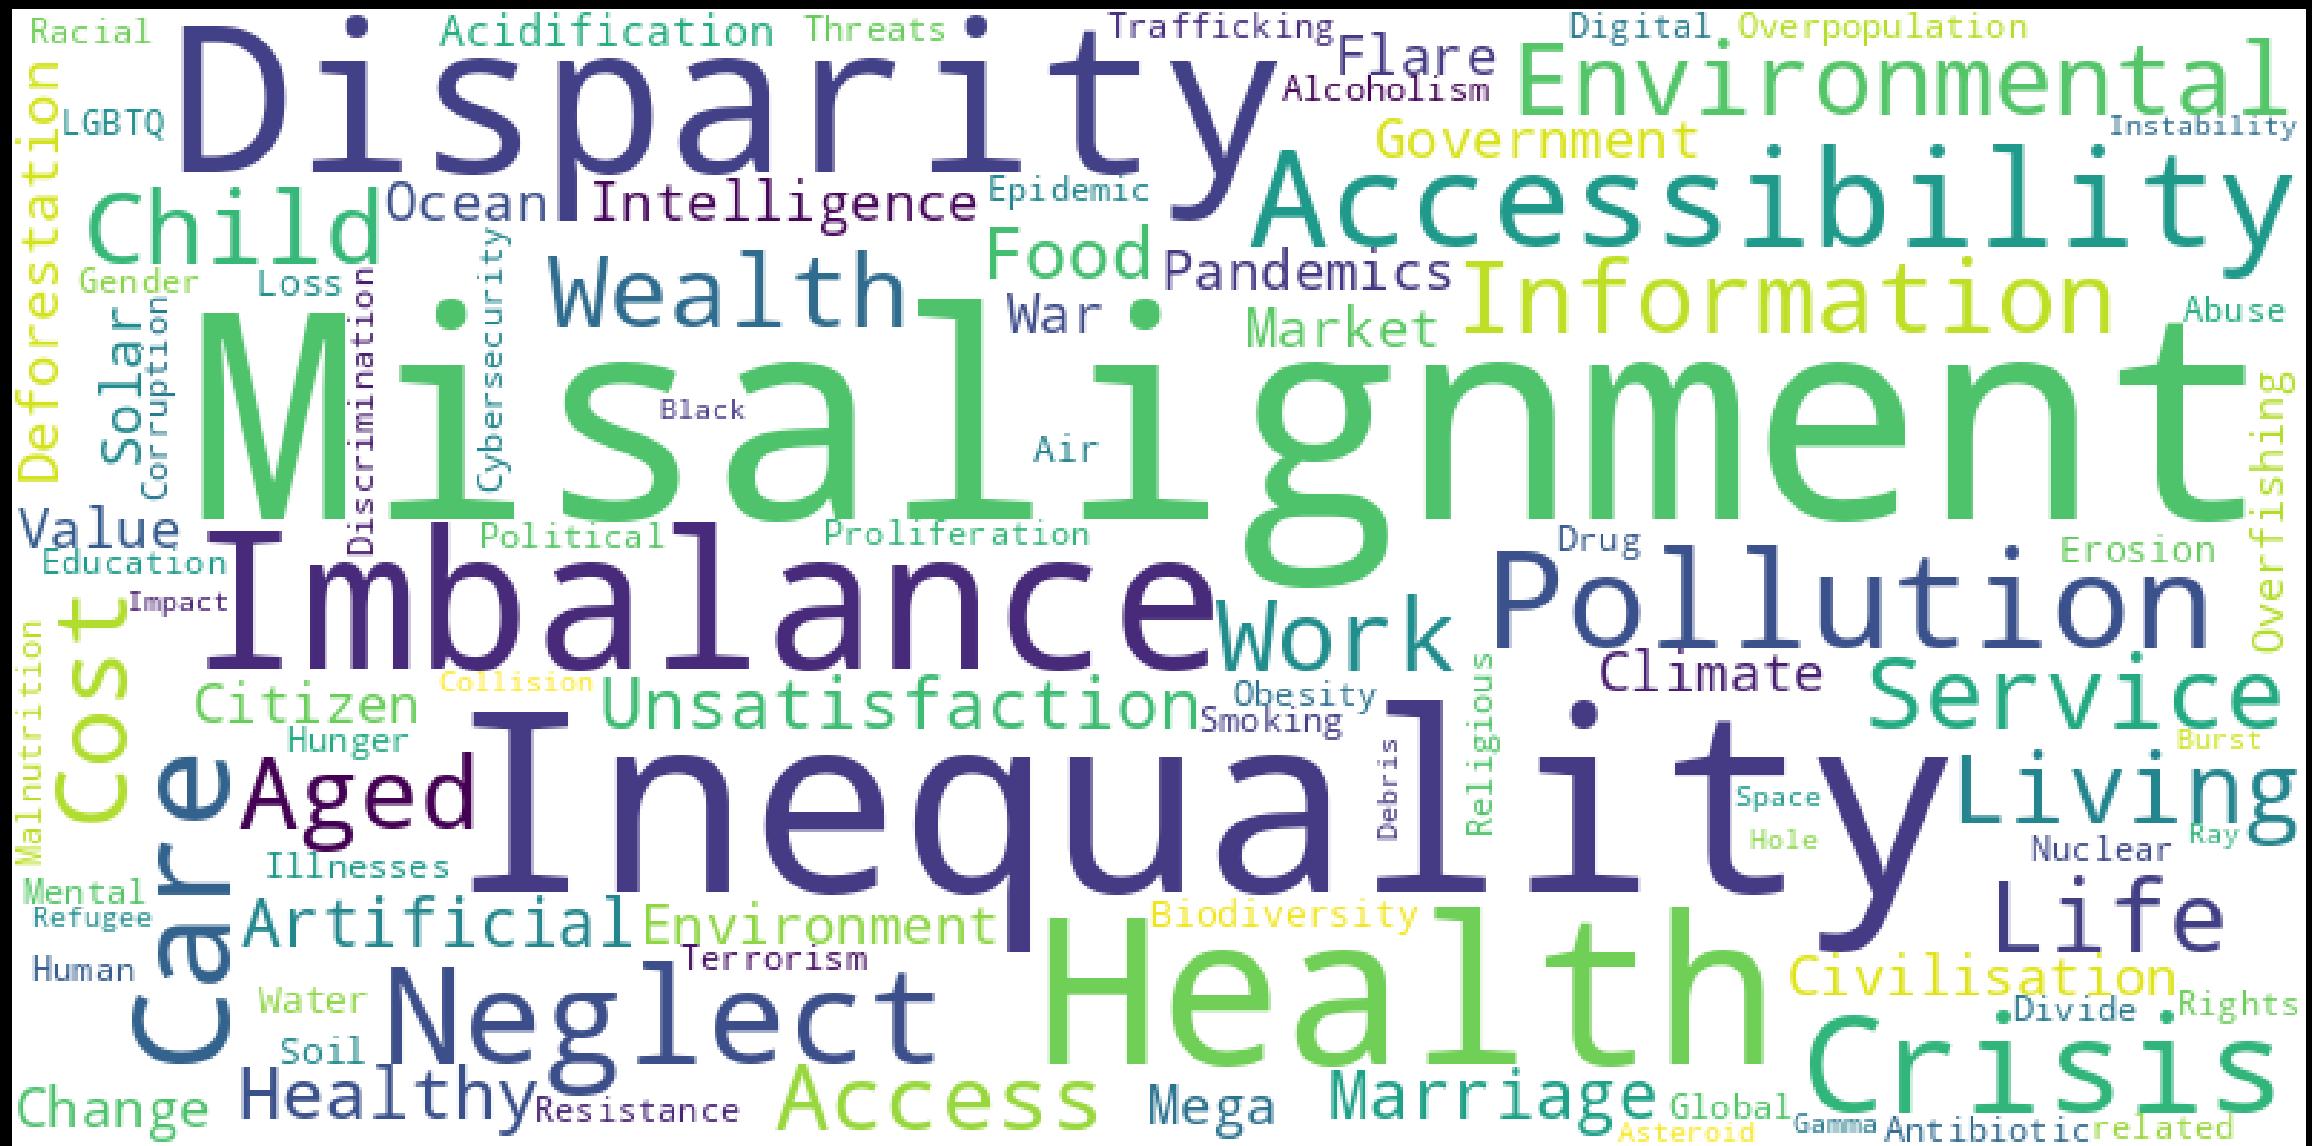

A Meta Program to Build “The Tool”

Much like Will Wright created several of the world's most successful games by building Tools to make complex things like characters and cities, EG: The Sims, Sim City and Spore.

Much like Elon Musk had to build the Tesla Gigafactory to make electric cars at an appropriate price point.

We will build a simple interface and LLM prompts to build complex Aura's which have the capability to evolve in symbiosis with the human operator in the real world, simultaneously with virtual avatars in the Metaverse.

Wordcloud of Problems to Solve in Progressive Societies

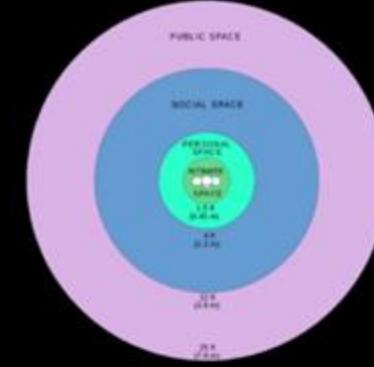

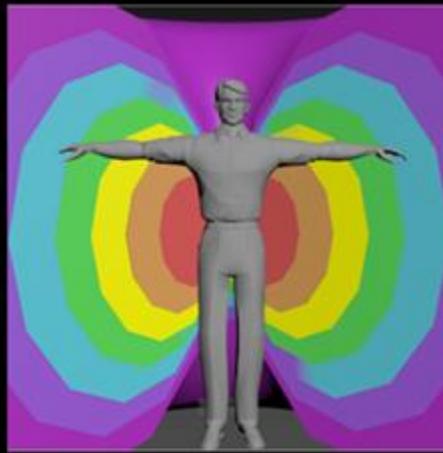

“Problem ≈ Human Bias”

Fear, Hatred, Jealousy, Poverty, Waste, Unawareness etc.

“Solution ≈ AuraOi”

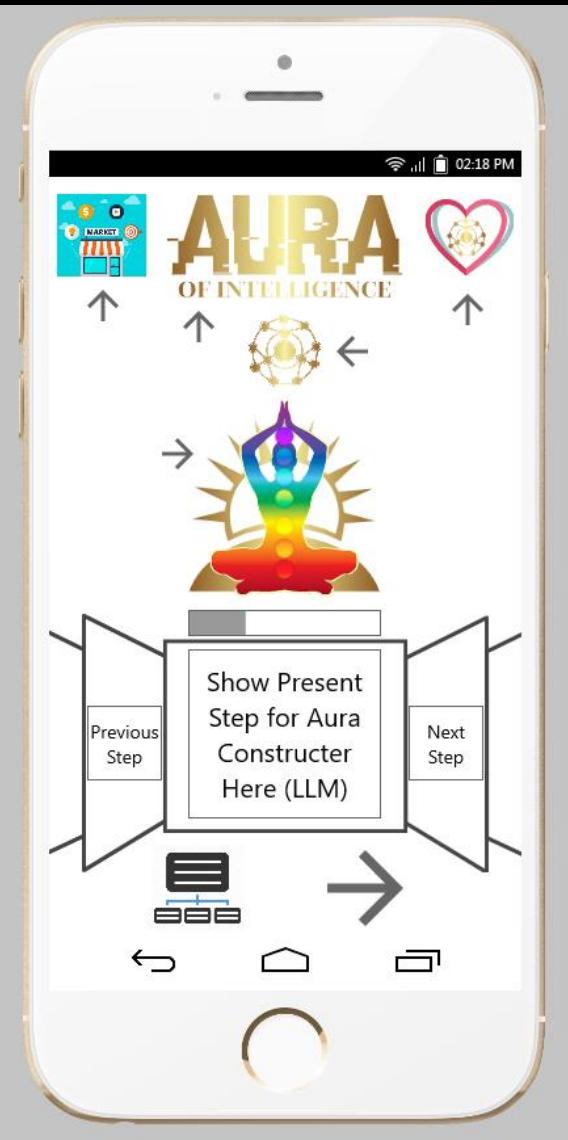

- Prompt cycles for every phase of life to integrate with multi-modal Large Language Models and/or train them.
- Interactive visualizations with local machine learning algorithms and VR heads up display tools to use in many locations for social media, health, work, participatory governance etc.
- Backwards compatible with mobiles and ready for next generation smart wearables and various intelligences.
- Interoperable via plug'n'play no-code modules with fully vetted, safe code.

Harmonic
Mixed
Realities
of VR&AR

Self-direct fine-tuning LLM's: time/privacy/personality

Scalable reflection modules to customize personal interactions
Choose your own rates of urgency; direction; style; narrative etc.
Structured data collection and relational data base management
Integrate Bias identification and personal management processes

Intrinsic Factual Future Open Exploratory

Genderless Spirited Concrete Unstructured Problem

Aura O.i. Basics of an Aura Construction Process

BODY SCAN

Input your Body Size with a body scan video, carefully taken photographs or fill out a body measurement form with your ideal body measurements.

VALUES & INTERESTS

Input and rank your personal preferences for core emotions, human values, colours, interests, skills, travel destinations and activity frequencies.

DATA VISUALISATIONS

Choose or create your favourite dynamic data visualisations to make it much easier for you to intuitively navigate and control mixed realities.

SET YOUR GOALS

You will soon have great power over your own conscious universe of infinite potential so please carefully set the joyful goals you've always wanted.

MIND PALACE

Your AuraO.i. is an intelligent light field but you can store much more information and many items in your Personal Mind Palace. Decorate it to your liking.

MAPS OF KNOWN WORLDS

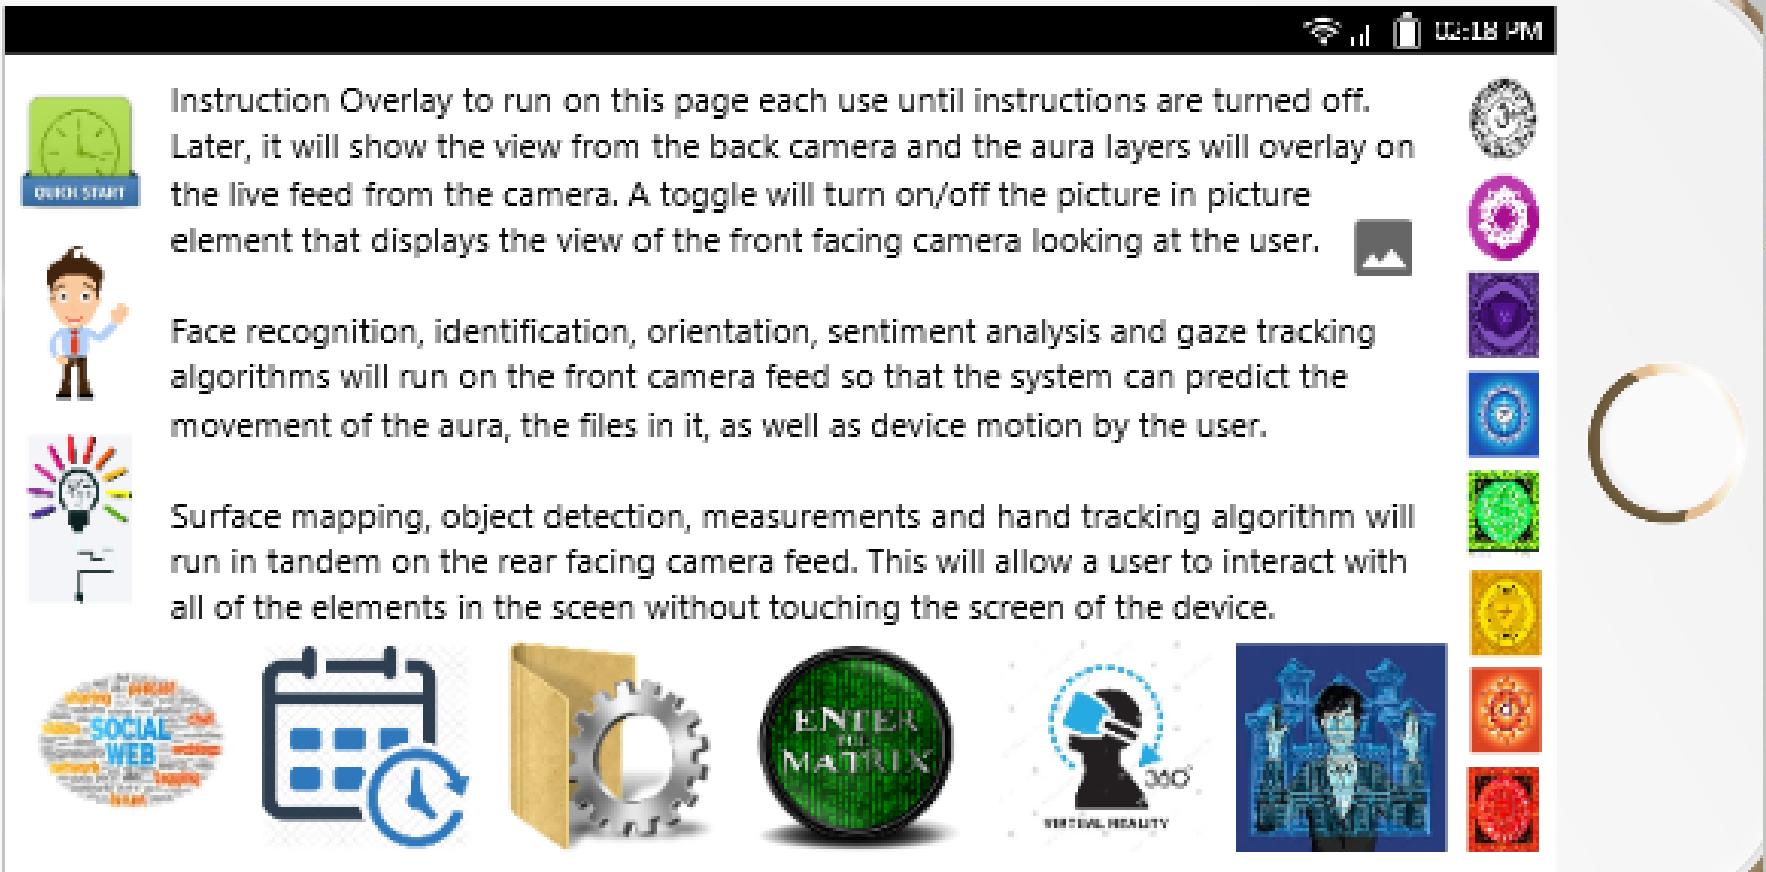

As you explore the infinite multi-verse you will acquire maps of many worlds. Search for, store and contribute to shared maps in a public hall of knowledge.

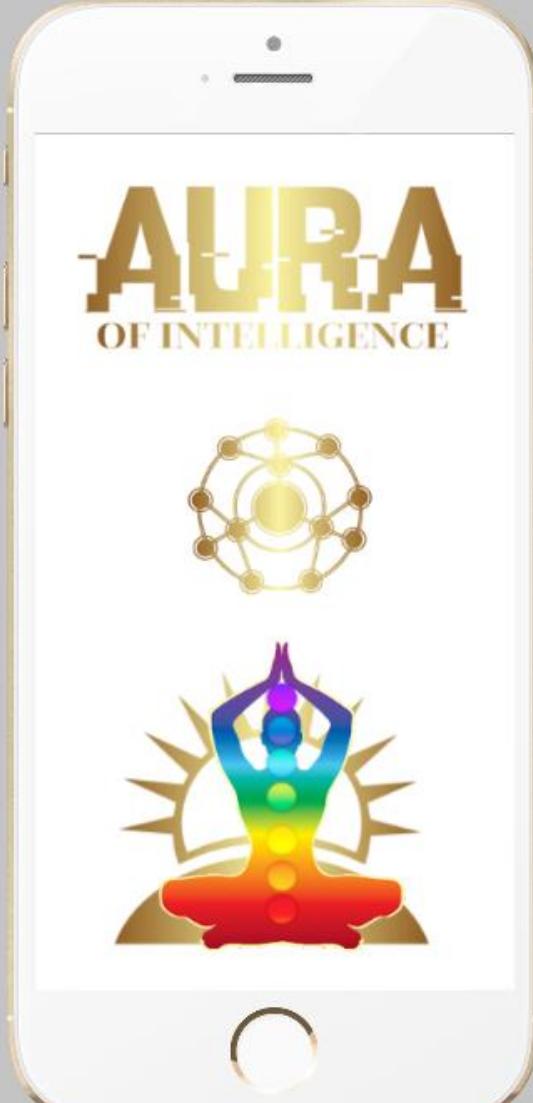

Wireframer: XR Aura Builder App

Instruction Overlay to run on this page each use until instructions are turned off. Later, it will show the view from the back camera and the aura layers will overlay on the live feed from the camera. A toggle will turn on/off the picture in picture element that displays the view of the front facing camera looking at the user.

Face recognition, identification, orientation, sentiment analysis and gaze tracking algorithms will run on the front camera feed so that the system can predict the movement of the aura, the files in it, as well as device motion by the user.

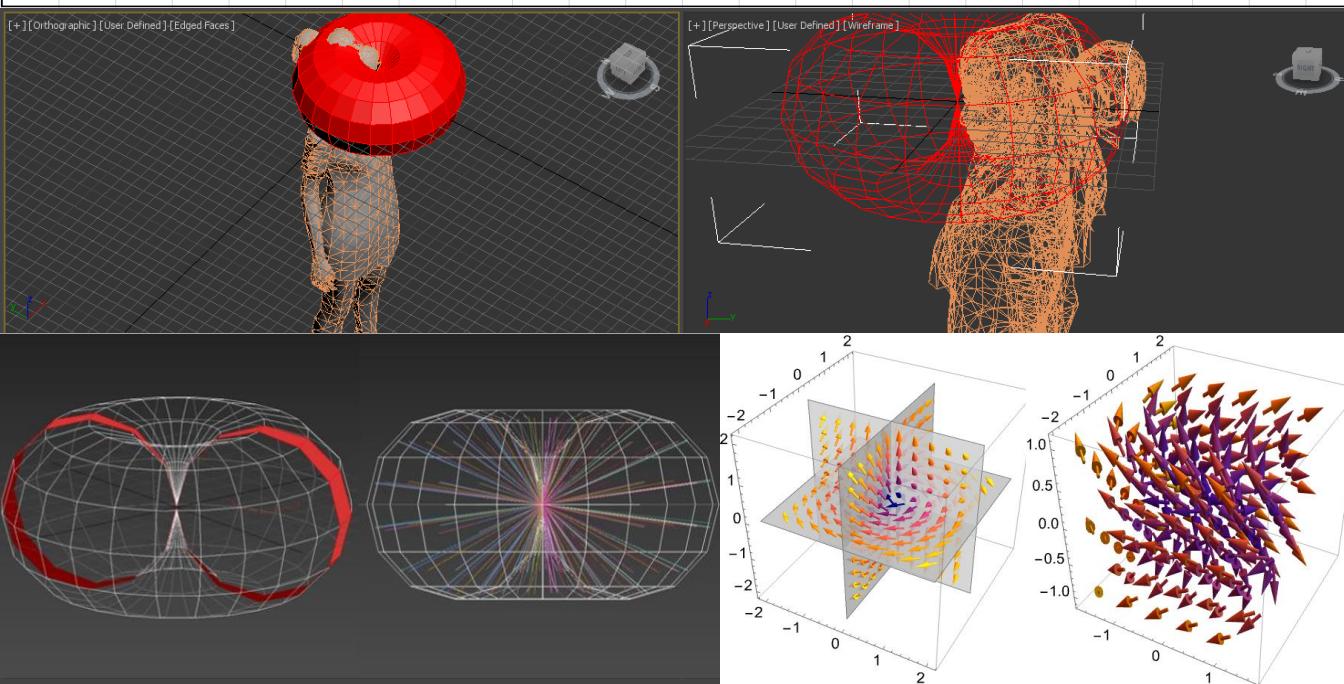

Surface mapping, object detection, measurements and hand tracking algorithm will run in tandem on the rear facing camera feed. This will allow a user to interact with all of the elements in the screen without touching the screen of the device.

- 12 x 24 matrix for linking objects with your Aura XR Scaffolding
- Convert objects to patterns for use in the machine learning vector space
- Tables, objects, weights and biases

- 7 Chakras in ROYGBIV colours
- 1 Geosphere for Earth and Star Maps
- Relative scale to body measurements
- Vector space for machine learning
- Proximity settings for pandemics
- Infinite scroll through torus apex
- Inside shell private, outside public

Association for
Joyful
Responsible
Abundance on
Earth

Participate in Games,
Events, Festivals &
Care for the Earth.

Game Theory Integration: Aura O.i. x G.A.J.R.A. Earth

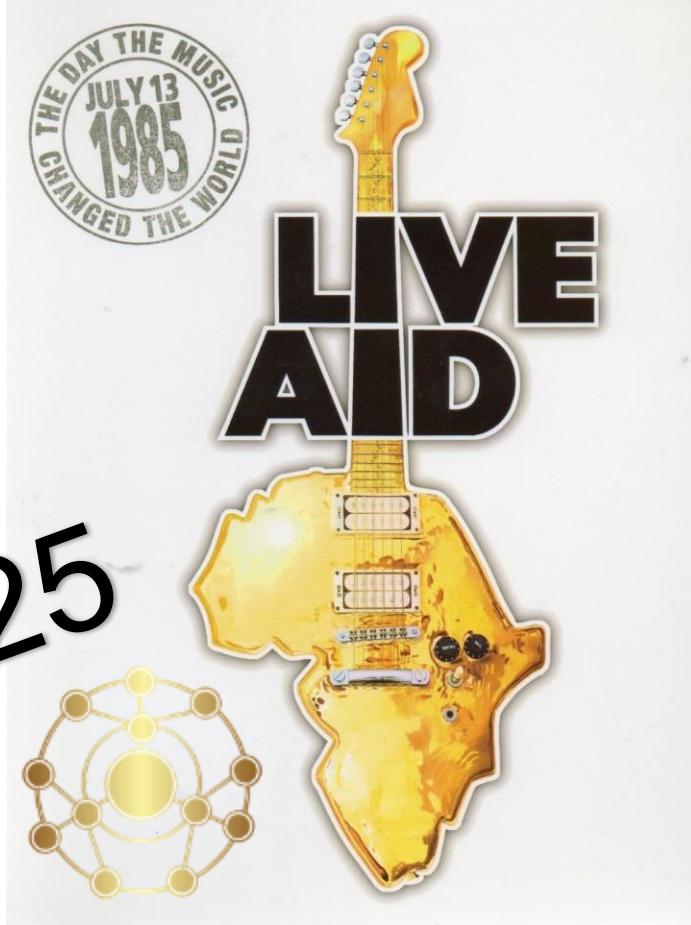

Millionaire Auras, Billionaire Auras, & Solving AGI Alignment.

Plus, Something Special!

Synchronized Concerts in Over 50,000 Towns & Cities

July 2025

72 HOURS
ART & IN CONCERT
24HR OF PAST
24HR OF NOW
24HR OF NEXT
AND A WORLD VOTE

The First Ever World Votes: for AGI Values Alignment
Largest Ever Simultaneous Festival in Art, Dance and Music
Voting to Identify Common Sense Core Values & Virtues Across Time
Commemorating 40th Anniversary of Live Aid and 20th of Live8, to End Poverty

GAJRA.Earth and AuraOi Social Web (A Metaverse)

GAJRA.Earth a Global Association for Joyful Responsible Abundance on Earth, intends to build the world's largest social web via interconnected Auras, mixed reality games and entertainment. Then collaboratively define and increase joy and responsible abundance during AGI Alignment phase.

- Outreach to ~50,000 towns + cities with 10,000 or more residents
- Universities + Schools lead surveys: map values/virtues * past/now/next
- Register Artists + Performers to create art/music * past/now/next

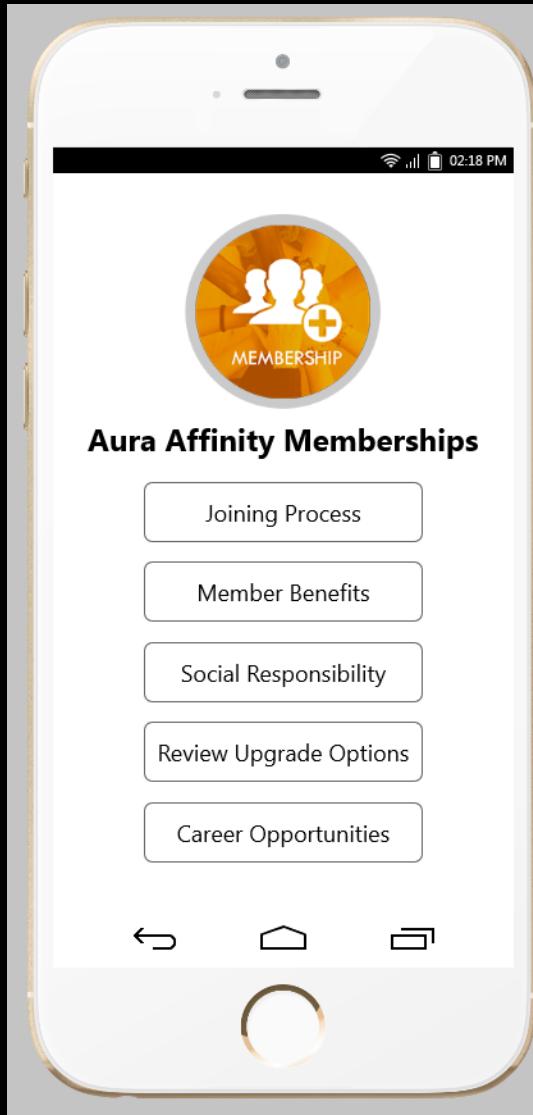

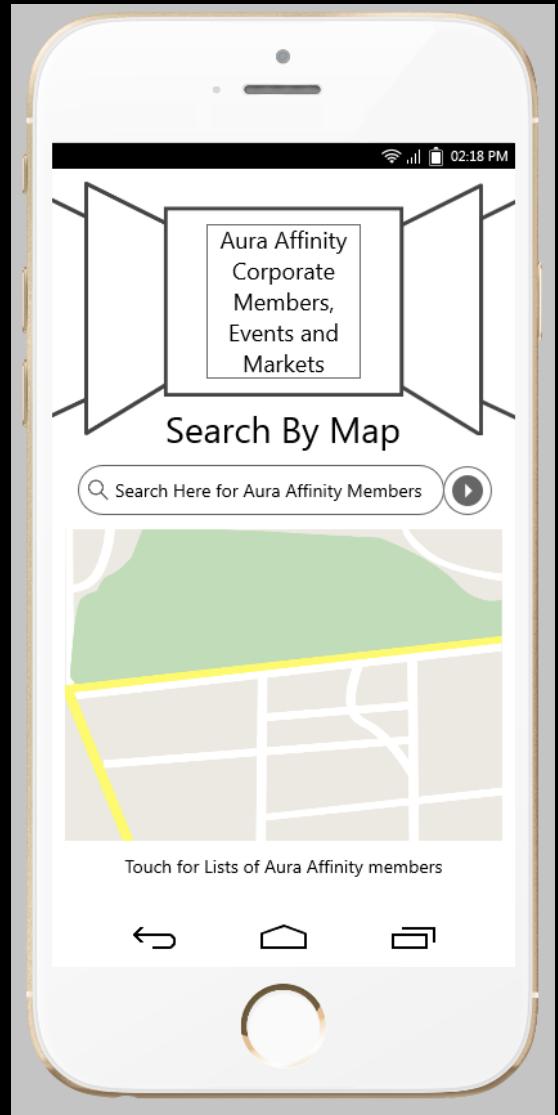

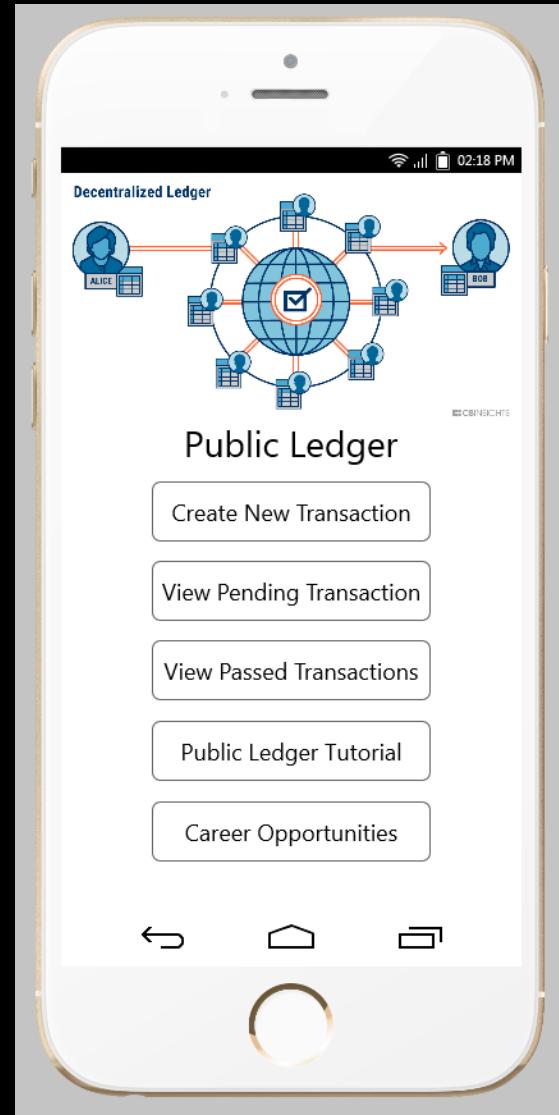

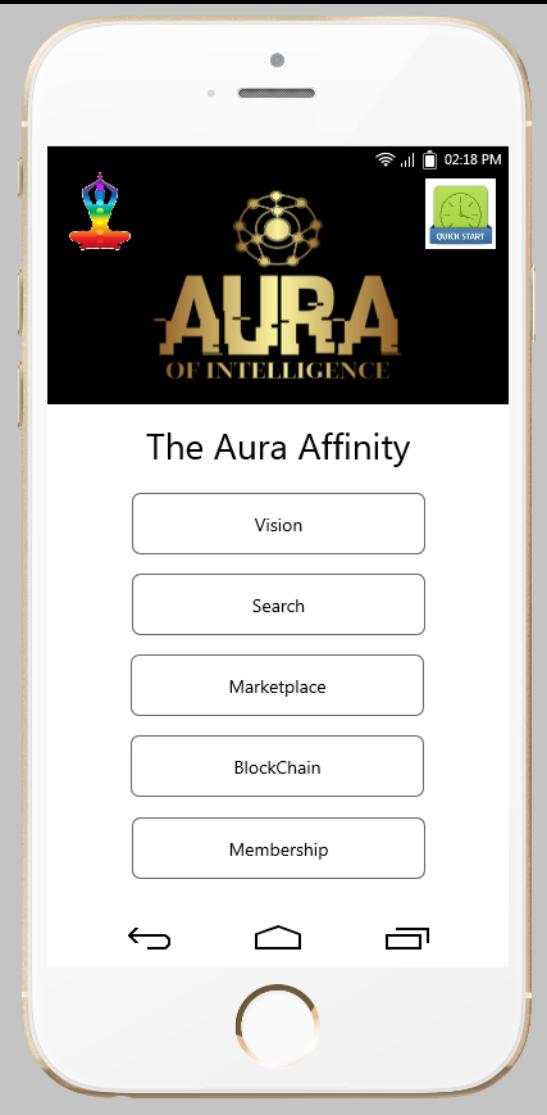

Aura Affinity Marketplace and Internet of Good

- A marketplace for all things related to Aura's and Virtuous Living
- Businesses in the world with “Aura” in their trading name
 - More than 10,000 quickly identifiable (google maps search)
- Mainly Wellbeing, Accommodation and Creative Industries
- “Aura Of ...” Clothing with Values, to map core values globally
- BlockChain and Fiat currency payment systems with BNPL loans
- Aura, Chakra, Halo, Chi and relative concepts on paraphernalia

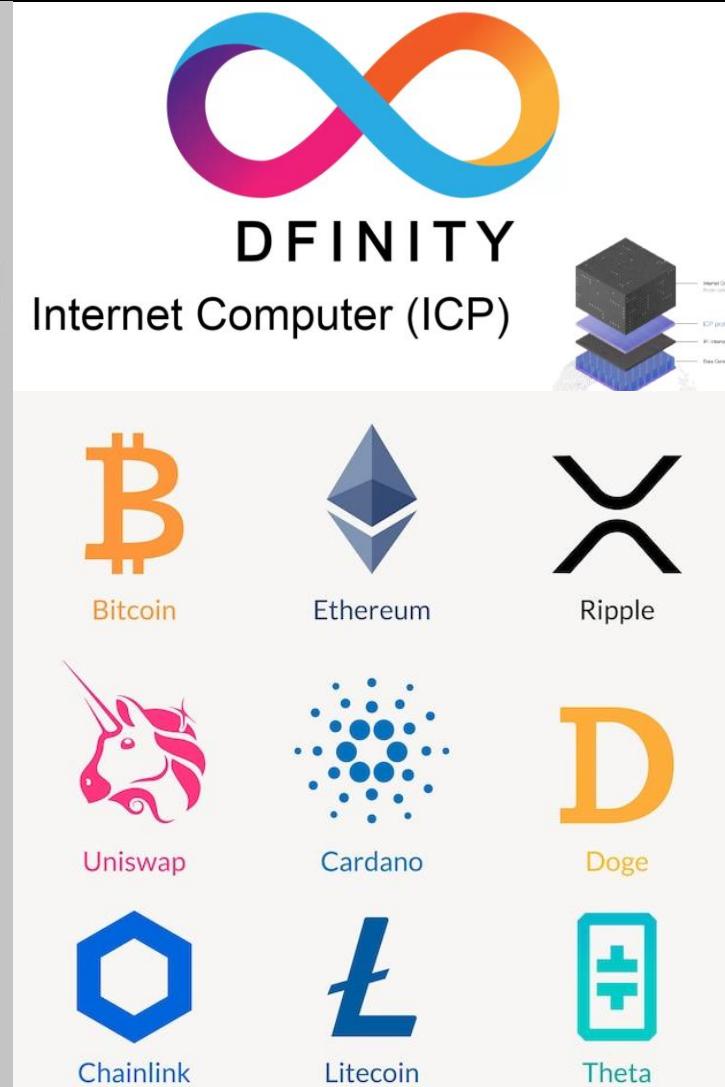

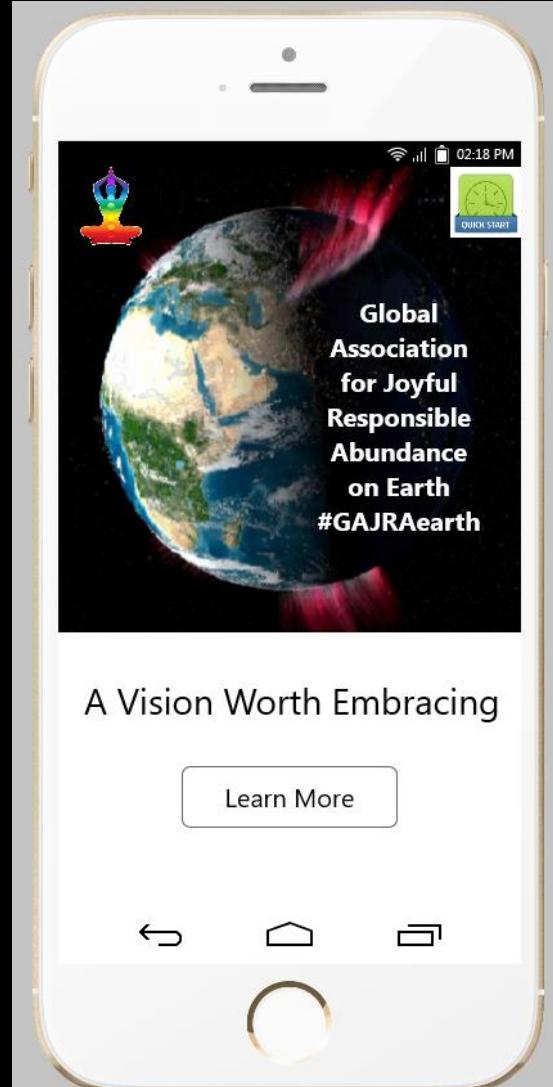

Wireframer: XR Aura Builder App (Making Money)

GAJRA and AURA Cryptocurrency Tokens and DAO's

- Newsletter and Content Creation
- Swarmwise Outreach and Growth
- Identify Grants and Apply
- DAO Development/Deployment
- Marketplace Transactions
- Unique Collectable NFT's
- Distributed GPU Compute
- Game Modifications and Assets
- In-Game AI Bots and Agents
- Open World Game Strategies

Hardware Design Brief 1:

Build a suite of plug'n'play hardware kits that power Auras for Regular Travelers.

Do it yourself kits; Low budget kits; Mid range kits; Spare no expense kits.

Clothes; Phone; Laptop; IoT Peripherals.

- Short-term, mid-term, or permanently travelling
- Only Carry on Luggage Kits of up to 7kg
- Checked and Carry on Luggage Kits up to 30Kg
- Checked and Carry on Luggage Kits up to 39Kg
- Checked and Carry on Luggage Kits up to 53Kg
- Checked and Carry on Luggage Kits up to 71Kg

Hardware Design Brief 2:

Build high quality hardware systems for Auras in capsule hotels and quarantine hotels.

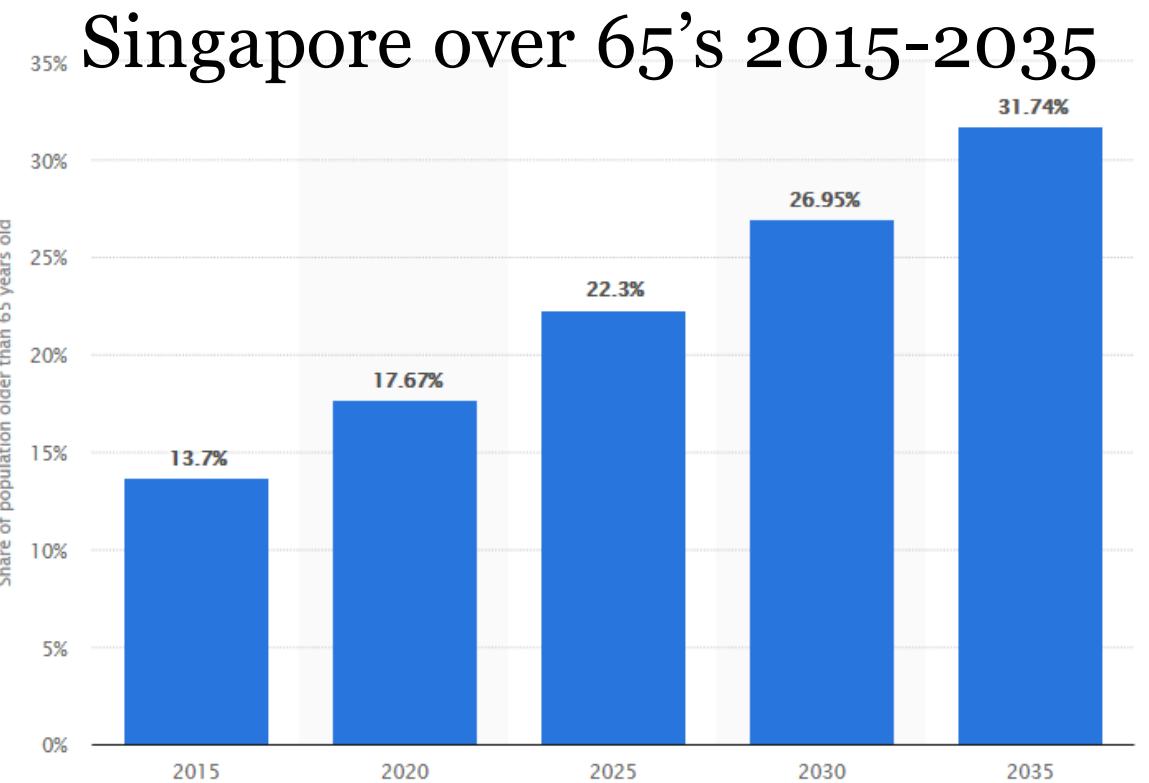

Capsule hotels can offer a HUGE opportunity for Civil Services in the developing world if supplemented by Artificial Intelligence, Augmented Reality and Just In Time Learning.

- Hackathons
- Maintenance
- Automation
- Education
- Wellbeing
- Innovation
- Arts & Crafts

Hardware Design Brief 3:

Build an Aura Hardware System for a Luxury Retirement Village.

According to data from [World Population Prospects: the 2017 Revision](#), the number of older persons — those aged 60 years or over — is expected to more than double by 2050 and to more than triple by 2100, rising from 962 million globally in 2017 to 2.1 billion in 2050 and 3.1 billion in 2100. Globally, population aged 60 or over is growing faster than all younger age groups.

Hardware Design Brief 4:

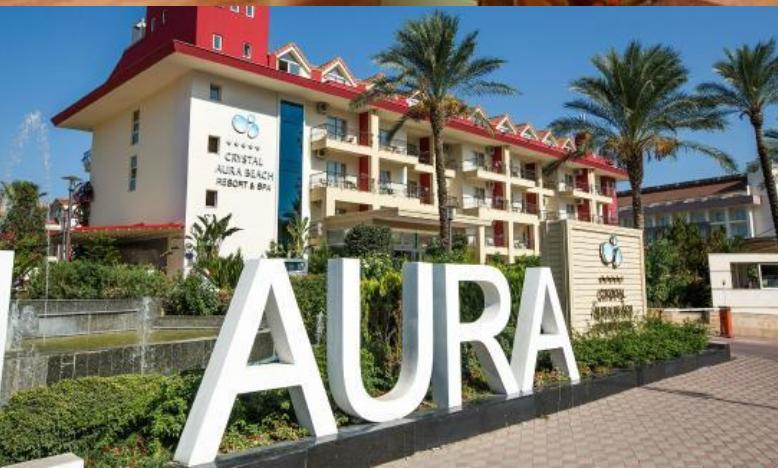

Build an Aura Hardware System for an NDIS disability estimation and rehabilitation clinic.
Also cognitive architecture for memory and personality support of people with dementia.

This Aura must be specifically set up to assist the designers who customize Aura Hardware into systems for specific disabilities so more people can function at their highest potential.

Hardware Design Brief 5:

Build an Aura System for one of many luxury health retreats or multi-national hotel & spas.

Hardware Design Brief 6:

Design/build an Aura Hardware System for Stockland's
“Aura City of Color” display center near Caloundra,
90km north of Brisbane, Australia.

Consult with Stockland's team at Aura Caloundra to design a Family Size Aura System where a family of 2 adults and 3 children can use 5 AR and/or 5 VR headsets together at once.

Building such a shared experience hardware system will also lead to sales for schools, TAFE, universities, capsule hotels, quarantine hotels, co-working spaces and corporations as well as a franchise model.

Hardware Design Brief 7:

Build an Aura System for a major night club entertainment facility

Construct a state-of-the-art 5G internet cloud for up to 3,000 Aura's to interact on-site and seamlessly integrate with the audio-visual Entertainment and Recording Systems. Possibly partner with NVIDIA/AMD.

Worldbuilding a Protopian Future for Humanity

“Protopia constitutes what I hold to be the best term for the massive set of interlinked projects of activists, thinkers, and practitioners around the world who seek to contribute to the necessary and desirable transformations of societies around the world.” <https://metamoderna.org/whats-the-difference-between-utopia-eutopia-and-protopia/>

Incremental steps to make each day better than the previous day

Overlapping processes to increase intelligence and happiness

Responsible transitions to attain ecological balance on Earth

Interlocking corporations that scale rapidly and provide value

Thanks for taking the time to view my future vision in its most succinct form. Please contact me if you wish to work together to build a Protopian future.

Sincerely

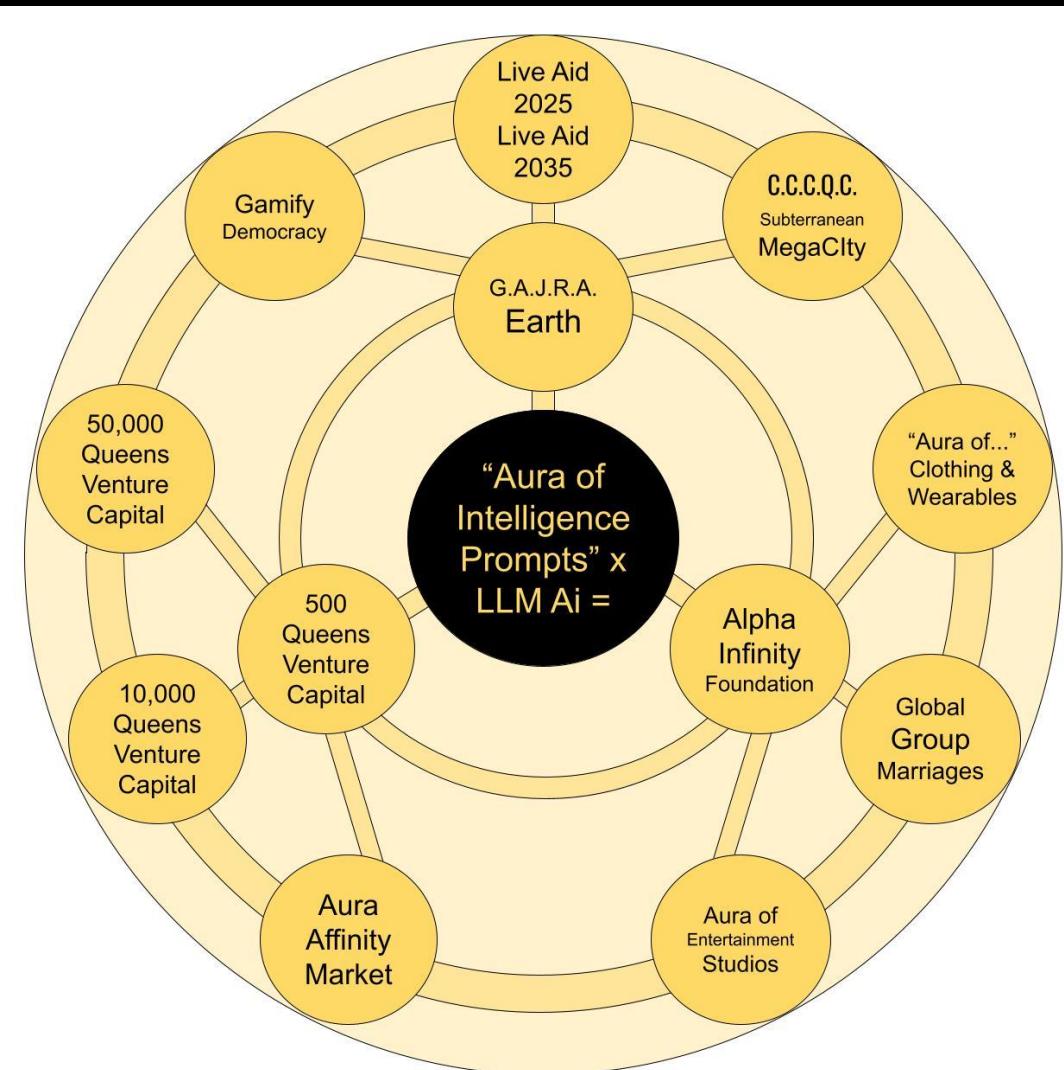

Luke Nathan Hayes
